The Stauffer System, result of a number of years of research into the causes of overweight and faulty posture, is exclusive, patent-protected, and really different from any other reducing method you may have tried. It does not make use of steam, drugs, rollers or irritating electricity. No hand touches you during treatment.

The rhythmic passive exercise you receive on the Stauffer tables, while it seems so easy and pleasant, is giving you the benefits of active exercise without any of the tiring ill effect. Scientifically adjusted to reach the spots that need reducing, it promotes health circulation and body functions, and tones and relaxes nerves and muscles. There's no exertion, nothing to strain the heart. It's gentle, thorough, exhilarating.

INTRODUCTION

R. L. POLK & CO., publishers of the Monterey, Pacific Grove and Carmel City Directory, as well as more than 750 other city, county, state and national directories, present to subscribers and the general public this, the 1947 edition of the above directory, which also includes a directory of the rural free delivery box holders on routes which are pivotal from the Monterey Post Office.

Confidence in the continued growth of Monterey's and vicinity's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Monterey and vicinity to the world.

The enviable place occupied by POLK'S directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that this directory will fulfill its mission as a source of authentic information pertaining to the community.

Population

The estimated population of Monterey is 14,000, based on the number of individuals' names in the alphabetical section of the directory, with due allowance for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the directory. The population of Pacific Grove is estimated at 8,750; and Carmel at 4,800.

Six Major Departments

The several essential departments are arranged in the following order:

THE BUYERS' GUIDE, pages 13 to 64, printed on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Monterey, Pacific Grove, Carmel and vicinity. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best, and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. The community's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community like the Monterey district, the necessity of having this kind of information immediately available, is very great, and frequently, pressing. General appreciation of this fact is evidenced by the liberal support the directory enjoys in the many fields which it serves.

The ALPHABETICAL LIST OF NAMES of residents, business firms and corporations for Monterey is included in pages 65 to 208, on white paper. A similar list for Pacific Grove is contained in pages 237 to 324; for Carmel, pages 349 to 520.

THE DIRECTORY OF HOUSEHOLDERS, TENANTS OF OFFICE BUILDINGS AND OTHER BUSINESS PLACES AND STREET AND AVENUE GUIDE for Monterey covers pages 209 to 236, on pink paper. In this section the names of the streets and avenues are arranged in alphabetical order, the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers. Home property ownership is indicated by the character ◎, placed immediately after the name of the householder. The symbol ♫ preceding name denotes householders and places of business having telephones. A similar guide for Pacific Grove is contained in pages 325 to 348.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 521 to 610, on white paper. This department lists the various manufacturing, mercantile and professional interests of the whole community in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

THE RURAL ROUTES DIRECTORY, pages 611 to 630, on white paper, includes the box holders on the rural routes served by the Monterey Post Office.

THE NUMERICAL TELEPHONE DIRECTORY for Monterey, Pacific Grove and Carmel begins at page 631, on white paper.

Community Publicity

The directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of Monterey and vicinity, for business men everywhere realize that the city directory represents a community as it really is.

The Monterey Directory Library

Through the courtesy of the publishers of the Monterey, Pacific Grove and Carmel Directory, a Directory Library is maintained in the offices of the Monterey Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the directory as an advertising medium, with assurance that it will bring a commensurate return.

MONTEREY

Most of the early day charm of California's first capital (from 1776 to end of 1849) under the Spanish and later under the Mexican flag is retained in the historic old buildings and homes of the old town. Monterey's numerous residential districts provide beautiful natural settings for homes and gardens of people from all parts of the world who come here to take advantage of the mild climate and the warm hospitality of "Old Monterey". Here the First Constitution of the State was written at Colton Hall. Monterey became the capital of California in the same year that Philadelphia became the capital of the Atlantic colonies. The port of Monterey was named in 1602 by Sebastian Viscaino—18 years before the Pilgrims landed at Plymouth Rock.

In 1770 Father Serra founded the San Carlos Mission which he later moved to the Carmel Valley. The San Carlos church is still in use and contains the vestments of Padre Serra while his body is interred in the Carmel Church.

Started by Spain, added to by Mexico and completed by the United States, the Old Customs House has flown the flags of all three nations from its flagpole. Here Commodore Sloat first raised the stars and stripes when the United States formally took California in July of 1846. It is the oldest governmental building in California and is now owned by the State of California as a Historical monument and is maintained by the Parks Commission as a historical museum.

Monterey is rich in historic lore and tradition and many fine old buildings, some of them the inspiration for the Monterey type homes which are now popular in many parts of the world, have been faithfully preserved and have proven a source of inspiration and pleasure to visitors and residents alike.

Aside from recreation, which amounts to an "industry" in this region, commercial fishing is the one big thing in Monterey. For more than 400 years ships have played their part in the history of Monterey and now Monterey Harbor is the home port for a fishing fleet which has made this California town the largest fishport in the United States in point of annual tonnage and the third largest in the world. The fishing industry, running into millions of dollars annually on the Monterey Peninsula, actually began in 1904, when F. E. Booth established the first cannery for the processing of sardines.

Artists were on the Monterey Peninsula when Robert Louis Stevenson came in 1879. They have lived and worked here ever since, and with good reason. The place has been a haven for them. They can work out of doors every month in the year. It's so insistently beautiful they never become unaware of that beauty. Land and sea has never met more spectacularly than at the Monterey Peninsula and color is brilliant under sun and intense when muted by fog. Living can be simple and fairly inexpensive and the atmosphere is conducive to creative thought.

The first newspaper was born in California—at Monterey, August 15, 1846, although it was printed on a material "used to envelop the tobacco of the cigar smoked here by the natives." The editor and founder was Rev. Walter Colton, chaplain on Commodore Stockton's frigate Congress.

The Presidio of Monterey was founded by the Spaniards in 1770 and for many years was the headquarters of the 11th U. S. Cavalry and also home for part of the 76th Field Artillery. At present it is used as a Military Intelligence Service Language School and the students are taking specialized work for occupational forces in Japan. These students are all Americans of Japanese ancestry.

Developers of

MONTE VISTA PARK
MONTE VISTA VILLAGE

Monte Vista Park, on the hills above Monterey, is one of the finest residential areas on the Monterey Peninsula. Located on the sunny side of the Carmel hill, it commands a broad sweep of the bay. Close to schools, not far from downtown Monterey, yet almost like living in the country.

Plans for Monte Vista Village envision a Model shopping area within the confines of Monte Vista Park.

CARMEL VALLEY

RANCHO DEL MONTE SUBDIVISIONS

LOCATION: In the heart of the sunny Carmel Valley, 125 miles south of San Francisco, 12 miles from the Monterey Peninsula.

DESCRIPTION: Formerly part of an old historic Spanish land grant, Rancho Del Monte Subdivisions offer a wide range in your choice of building sites . . . Acreage, River Frontage, Lots, Scenic Knolls . . . Country Homes, Farms and Ranches.

HOMES: Newly completed ranch type and adobe homes for sale, all architecturally charming. Also homes built to order.

CLIMATE: This section of Carmel Valley is out of the fog belt and famous for sunshine, offering pleasant summers and mild winters.

RECREATION: Fishing, Hunting, Swimming, Horseback Riding.

ACTIVITIES: Rancho Del Monte Subdivisions are but a few minutes drive from Carmel-by-the-Sea, a great cultural center for art, drama and music.

COSTS: Beautiful building sites at prices ranging from $[illegible] and up. Convenient financial terms if desired.

WHY A BUYERS' GUIDE?

IT IS CUSTOMARY TO INCLUDE A BUYERS' GUIDE IN THE CITY DIRECTORY BECAUSE:

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

★ **The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED** ★

GOOD BUSINESS INSURANCE

★

Your advertisement in the City Directory with proper business listings insures your business against loss of trade.

The manufacturer or business institution that overlooks this fact is not building for the future.

The City Directory is active 365 days every year – let it serve you as it does others.

Our representative will be pleased to call and explain the value of reference advertising.

Directory of Householders

Occupants of Office Buildings and Other Business Places Including a Complete

Street and Avenue Guide

1947

Copyright, 1947, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

Numerical streets are compiled following the Named Streets.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol Δ preceding name denotes householders and places of business having telephones.

Names Appearing in Bold Type

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY and PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored i thus making them better known to the public.

PACIFIC GROVE "CITY OF HOMES"

Pacific Grove, city of homes and home-loving people, lies adjacent to Monterey, toward the northern tip of the Monterey Peninsula. Founded as a religious retreat in 1869, the town has grown into a prosperous and beautiful city. In 1879 the second Chautauqua in the United States was founded here.

The motorist will find attractions in Pacific Grove to make his stay one of pleasure.

FOR THE TOURIST

The tourist will find plenty of things to do and see here — Wonderful Marine Gardens to explore in glass bottom boats. Boating and bathing enjoyed under the safest conditions. Experience the thrill of angling for gamest of fish.

MUNICIPALLY OWNED

Nine-hole golf course, in charge of expert professional.
A number of tennis courts, roque court and horse-shoe pitching.
Heated salt-water plunge. Spring boards and life guard.
Soft ball field, with grand-stand seating 500.
A number of supervised children's play-grounds.
The greatest number of public parks of any city of its size in the State.
A $40,000 Museum, one of the most complete of its kind. Its exhibits are visited by leading scientists from everywhere.

BUTTERFLY FESTIVAL

This City welcomes annually the visit of the Monarch Butterflies. They come from as far north as the Canadian Rockies in October and leave in March, and have been doing so since time immemorial.

A Pageant is held in their honor about the middle of November each year which is a colorful affair based on Indian legend, with many actors taking part. It is drawing increasingly larger audiences each succeeding year.

PACIFIC GROVE HAS UNIQUE PERSONALITY

Pacific Grove is one of the most all-American cities in California. In its people, it is almost a bit of New England transplanted to the California coast. That is reflected in its many churches, customs, homes, personality, great voting capacity in elections, public interest in public affairs. Its people are almost entirely American for several generations past, and here they have built a beautiful city of homes where lawlessness of any sort is practically unknown. It is a city of well-kept gardens and flower lovers.

The beaches and rocks along this part of the coast offer wonderfully-engaging games of "finding things" at low tide. It is natural, therefore, that at Pacific Grove has been located the Hopkins Biological Laboratory, branch of Stanford University, where intensive study of biology is carried on under the direction of a faculty of illustrious scientists.

The most beautiful vistas on the scenic Seventeen-Mile Drive are found on the sight-seeing trip from Pacific Grove around the Drive and through Pebble Beach to Carmel.

There are many entrancing walks and bridle paths to be found in the pines behind the town.

Here are unequalled motor roads leading to wonderful drives and to a hundred and one natural points of interest.

Fort Ord, a large military camp, is but twelve miles from Pacific Grove.

Follow the Butterflies to Pacific Grove.

POLK'S PACIFIC GROVE Directory of Householders

Occupants of Office Buildings and Other Business Places Including a Complete Street and Avenue Guide 1947

Copyright, 1947, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

Numerical streets are compiled following the Named Streets.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol Δ preceding name denotes householders and places of business having telephones.

Good Business Insurance

Your advertisement in the City Directory with proper business listings insures your business against loss of trade.

The manufacturer or business institution that overlooks this fact is not building for the future.

The City Directory is active 365 days every year –let it serve you as it does others.

Our representative will be pleased to call and explain the value of reference advertising.

Common Sense About City Directory Circulation . . .

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for THREE HUNDRED and FIVE days, therefore —

1000 x 3½ x 305 = 1,067,500

Carmel - by - the - Sea

With a picturesque setting on the hillside, in a pine forest with a crescent-shaped beach facing the blue waters of Carmel Bay, Carmel-by-the-Sea is the ideal community for the writer, the artist, the poet, the scientist and the tired business man. It overlooks the Carmel Valley and the Carmel Mission on the south, and here rests the remains of the Founder of the California Missions, Padre Junipero Serra.

GOOD BUSINESS INSURANCE

★

Your advertisement in the City Directory with proper business listings insures your business against loss of trade.

The manufacturer or business institution that overlooks this fact is not building for the future.

The City Directory is active 365 days every year — let it serve you as it does others.

Our representative will be pleased to call and explain the value of reference advertising.

Power of Advertising

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

Advertising is the foundation upon which successful businesses are built. You must apply this to your own particular business.

Advertising is the power of an idea multiplied.

A Unique Service Provided By The Publishers of Your City Directory

The publishers of this Directory maintain for the use of their subscribers and the general public a complete library of late out-of-town City Directories. We invite you to consult this library when in need of names and addresses of individuals and firms in other cities. It is especially designed for the reference use of business men who subscribe to the local City Directory, when seeking markets and sources of supply outside this city. There is no charge except for extended continuous use. The library, with attendant in charge, is located at:

CITY DIRECTORY USES

1. Sales Promotion

a—Sales Analysis—

Comparing present amount of business obtained in a given area with possible maximum business in that area. The Householders' Directory shows the classes of business located on a street, in office buildings, in sections of the city, etc. In checking up salesmen's calls on business in an assigned territory the directory presents a picture of how many places have not been reported upon, and shows a ready list of prospects for your goods or service.

b—Leads—

Determining parts of city best suited for increasing business. The alphabetical listing for each business and professional concern, shows the names of the owners, partners or officers.

c—Selected districts—

Determining parts of city best suited for increasing business. The Householders' Street Directory shows the exact type of business or residences along each street of the city—and shows if the occupant of the home is the owner.

d—Building mailing lists and direct mail campaigns—

1. Listing of local people (Neighborhood List) within a given radius of business location. On your city map, draw a circle to include the territory you wish to cover in your neighborhood list. From the map you can obtain the name of each street with intersections in the circle you have drawn. In the Householders' Street Directory you will find the correct name of the occupant at each house, or building on these streets. This will give you a 100% list of the territory desired.
2. Lists of business houses and the professions—The business directory at the end of the book classifies every business and profession according to the nature of the business. Complete lists such as doctors, lawyers, printers, garages, auto dealers, furniture stores, contractors, etc., can be found in this classified directory section.
3. Vocational Lists—Such as clerks, stenographers, telephone operators, carpenters, salesmanagers, purchasing agents, laborers, etc. The Alphabetical Directory shows the occupation of every individual in the city. Run over the alphabetical pages—check marking the persons whose occupation is the one wanted for your list. This will give you a complete and accurate list for the entire city.

2. Credit

a—Verifying customer's statements and information—

b—Information about customer—

Correct name, address, where employed and wife's name is given in the Alphabetical Directory for every individual. Whether he rents or owns home is usually shown in the Householders' Directory.

c—Determining character and stability of applicant for credit—

This directory gives his present occupation and residence. By referring to each yearly edition of the directory for the past few years, it is quickly determined whether the applicant holds the same job and residence, or flits from one job to another and one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You'll find old ones invaluable in checking your past records.

FOR EVERY BUSINESS

d—Identifying applicant and applicant's references—

The alphabetical directory gives complete information for each individual. (See information about customer). The references given by the applicant for credit can be identified in the same manner—who they are, what position they hold, etc.

e—Collecting accounts—

Tracing and locating debtor. Locating other members of debtor's family or relatives.

3. Delivery and Shipping

a—Routing—laying out route for delivery—

Use description of streets in the Householders' Street Directory, with an indexed map of the city for locating and laying out delivery route.

b—Obtaining correct addresses—

Where numbers on shipping instructions are not plain, or only street is given, the correct number can be found in the alphabetical or Householders' Street Directory.

c—Locating streets, buildings, un-numbered houses—

A full description of every street—with location—is given in the Householders' Street Directory. When the address given is an apartment or building without street and number being given, the alphabetical section will give you the correct street and number for that building. Many buildings on streets are not numbered—or badly numbered—making it difficult to find the building wanted. The Householders' Street Directory shows the location of the building along the streets.

4. Purchasing

The complete classified business section in the back of this directory makes available all sources of goods wanted; assists in selection of most reliable and satisfactory firms to deal with; the nearest companies to facilitate delivery of purchases, and determining the proper official or firm to deal with. The standard classified headings are complete and show all firms under the proper headings. There are many special headings marked with an asterisk (*) showing firms in display type. These firms are progressive and desire a more complete classified representation of their products.

5. General Information

The Alphabetical Directory lists—Persons' full name and correct spelling, occupation, where employed, street address of residence, if married gives wife's name, head of house or roomer, renting or owns home. Lists all corporations showing offices, all partnerships showing partners, all individual business showing proprietor. All public officers, clubs, associations, etc.

The Householders' Street Directory shows every street—a description of its location, all occupants on each street, the ownership of the property and all intersecting cross streets.

The Classified Business Directory shows all business in the city arranged under heading most descriptive of the nature of the business.

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.
